Summary: I'm experienced in user acceptance testing, front end web development, & responsive design. I'm seeking a role requiring related skill sets.

Experiences

Quality Assurance Intern, Munchkin, Van Nuys CA

7/2018 - 12/2018

Functional and compatibility testing of e-commerce websites on various platforms (PC/Mac) & devices (iOS/Android) with hands-on participation in the software development life cycle (SDLC).

- providing QA testing during beta, release candidate, and post-launch.
- identify, analyze, report, and track issues through resolution using Jira.
- check for regressions in software performance.
- review design comps and make suggestions to mitigate web accessibility and UX pain points.
- validate and create test cases for user reported bugs.
- investigate and analyze customer interaction on the site using Mouseflow tool.

Future Front End Engineer, Codetalk, St. Joseph Center, Los Angeles, CA 9/2017 - 12/2017

In a 16-week intensive web technology bootcamp, I learned to build websites from scratch starting from concepts to design to final products, using technologies like HTML, CSS, Bootstrap, jQuery, JavaScript, and WordPress.

Tiny Cakes Bakery <https://amybaldwindev.github.io/tiny-cakes>

4/2018

Solo course project: created single page responsive web application for sample local bakery using responsive web design, Bootstrap 4, CSS3, HTML5, PhotoShop Elements, GitHub Pages.

Pine Jewelry Website <https://amybaldwindev.github.io/pine-jewelry-2> 4/2018

Solo course project: built a single page responsive application from a provided PhotoShop Document using Bootstrap 4.

New Potato Technologies, Inc. Administrative Assistant, Wilmington, NC 9/2012 - 6/2014

Wore many hats for a small, 15-person tech start-up. Provided administrative support to CEO and senior staff, including travel arrangements, resume screening, and supplier communications. Also participated in customer service and IT work. Handled tasks resourcefully, diplomatically, and independently.

Western Washington University, B.A. Communication, GPA 3.1 6/2009 -6/2011

Areas of focus included proficient and technical writing, critical thinking, working in small groups, and event planning.
